Beauty Starts Here

COSMO-line from SHKHESS Pharmaceutical Industries

WHY TO CHOOSE COSMOLINE PRODUCTS

- **Cosmetic medical company**
- **In a drug factory (shkhess) → GMP**

• **FORMULA:**

3 national company:

- ✓ **pasf: in Germany**
- ✓ **cisme: in Italy**
- ✓ **cederma: in France**

These companies provided us with the formula on condition buying raw material from them

- **Quality:**

- **1- vehicle:**

- ✓ **Viscosity**

- ✓ **Weather condition**

Quality:

- Active ingredients:

The most concentration to give the perfect efficacy

ex: cutipure with high concentration

Extract: only the goal ingredient

U-Ray 100

Ingredients - Sunscreen

- ◆ Organic (octinoxate) – UVB
 - More oily skin feel
- ◆ Inorganic (TiO₂) – UVA & UVB
 - Dryer skin feel
- ◆ Combination of the two
 - SPF 50⁺
 - Good skin feel

يو-راي 100

Salicylic Acid 2%

for combination & oily skin
& acne prone skin

- **clean active foaming gel is indicated In the topical treatment of whiteheads , blackheads , seborrheic and acne prone skin**
- **Skin looks healthier after 14 days of using clean active**
- **Skin's texture has improved, purify pores, remove excess oil, and prevent acne breakouts**
- **2% salicylic acid** for maximum cleaning power

TREAT THE CAUSES
Control The Acne

Acne-A

WITH

Vit A acid (Tretinoin) 0.05%
Enhanced with
Vit A palmitate 0.5%
+
Cutipure CLR

Acne-A

- is a once daily topical treatment for acne vulgaris
- It contains Vit A acid (**Tretinoin**) 0.05% with **Vit A palmitate** 0.5%
+**Cutipure CLR**
- **This is the 1st time to combine these three previously ingredients**

Vit A acid (Tretinoin) 0.05% enhanced with Vit A palmitate 0.5%:

- 1- Increase cell turnover and exfoliation rates which is often slowed in patients with acne
- 2- decreased the amount of skin cells that stick to one another, which causes the skin to hold onto old cells for too long (and clog up)

- **Cutipure CLR™ is an emulsified system containing oil-soluble active ingredients**
- **It is specially developed for treating oily and mixed skin and the formation of pimples and pustules is synergistically diminished**
